About Me

Software developer with 10+ years of experience building scalable, high-performance enterprise solutions on the .NET platform. Delivered 15+ projects across CRM, workflow automation and airline operations. Specialized in clean architecture, multi-tenant systems, and full-stack development with C#/.NET backend and modern JavaScript frontends. Proven track record of leading backend refactors that improved performance and maintainability, mentoring development teams, and architecting solutions serving millions of transactions. Early adopter of AI-assisted and agentic coding workflows, leveraging tools like GitHub Copilot, OpenCode, and Codex to accelerate development and improve code quality.

Work Experience @ Open Business Software Solutions (OBSS)

Manager – Software Development Group *(11.2023 – 11.2025)*

Worked as an outsourced developer at **Turkish Airlines' subsidiary Turkish Technology**, building and modernizing enterprise lounge management systems. Focused on **.NET backend** and **Angular frontend** technologies.

- Led the complete backend refactoring of the CIP Lounge Management System, reducing API response times by optimizing database queries and applying clean architecture patterns across 40+ endpoints.
- Designed and delivered scalable backend services handling high-traffic airline lounge operations serving 10,000+ daily guests across multiple airports.
- Implemented caching strategies with Redis, improving system throughput and reducing database load under peak traffic conditions.
- Collaborated with cross-functional teams, conducting code reviews and establishing coding standards that improved code quality and reduced production bugs.

Key Projects

- **Turkish Airlines CIP Lounge Management System** — Lead Backend Developer & Architect
- **Turkish Airlines VIP Lounge Management System** — Software Developer

Work Experience @ Bilgi Birikim Sistemleri

Software Developer Specialist *(08.2015 – 12.2019)*
Senior Software Developer Specialist *(12.2019 – 06.2021)*
Software Architect *(06.2021 – 11.2023)*

Delivered CRM, workflow, portal, and campaign management solutions for enterprise clients using the Microsoft and .NET ecosystems.

- Developed Plug-ins and Custom Workflow Activities on Microsoft Dynamics 365 using both early-bound and late-bound entity models, integrating CRM with 10+ external enterprise systems.
- Architected and built the in-house .NET web application framework (NetÇerçeve) using ASP.NET Boilerplate, reducing new project setup time from weeks to days and standardizing development across 4+ projects.
- Designed and implemented a visual workflow engine with drag-and-drop editor, enabling business analysts to modify and deploy process changes independently, eliminating developer bottlenecks for 80% of business logic updates.
- Built and maintained REST APIs and MVC/MVVM applications using .NET Core, Entity Framework, SQL Server, and frontend technologies (Kendo UI, Bootstrap, jQuery), serving enterprise clients with 100+ concurrent users.
- Designed and optimized complex SQL Server stored procedures and scheduled jobs, processing 100K+ daily records across integrated enterprise systems.
- Served as technical lead and software architect on 6+ long-running enterprise projects, mentoring junior developers and conducting architecture reviews.

Featured Projects

- **BBS Campaign Engine** — Lead Software Developer & Architect
- **Derimod CRM – BBS Campaign Engine Integration** — Lead Software Developer & Architect
- **YKK A.Ş Item Opening/Closing** — Lead Software Developer & Architect
- **NetÇerçeve Web Application Framework** — Lead Software Developer & Architect
- **MERCK MSquare Web Application** — Lead Software Developer & Architect
- **Kastamonu Entegre Seller Portal (KEP)** — Lead Software Developer & Consultant

Additional Projects Delivered

Delivered over 10 enterprise CRM, portal, and workflow applications for clients including **Şişecam, Allianz Turkey, Eczacıbaşı, Okan University, Panasonic, İGDAŞ**, and others.

Skills & Key Qualifications

- **Programming Languages:** C#, JavaScript, TypeScript, Java, SQL, HTML5, CSS3
- **Frameworks & Libraries:** .NET, .NET Core, ASP.NET MVC, ASP.NET Web API, Entity Framework Core, ASP.NET Boilerplate, abp.io, Vue.js, Nuxt, Angular, React, Node.js, Bootstrap, Kendo UI, jQuery, MediatR
- **Architecture & Patterns:** Clean Architecture, Layered Architecture, Multi-Tenant Systems, Microservices, Domain-Driven Design (DDD), CQRS, SOLID Principles, Repository Pattern, MVC, MVVM, REST API Design
- **Databases:** Microsoft SQL Server, PostgreSQL, Oracle DB, MongoDB, Redis
- **Cloud & DevOps:** Azure, Docker, CI/CD Pipelines, Git, TFVC (TFS), Linux
- **CRM & Enterprise:** Microsoft Dynamics 365 (Plug-ins, Custom Workflow Activities, Integrations)
- **Testing:** Unit Testing, Integration Testing, xUnit, NUnit
- **Tools:** Visual Studio, JetBrains Rider, VS Code, GitHub Copilot, Agentic AI Coding (OpenCode, Codex), Agile/Scrum, Jira

Professional Highlights

- 10+ years of hands-on software development across enterprise projects
- Architected multi-tenant, scalable systems following SOLID, DDD, and clean architecture principles
- Mentored teams of up to 5 developers, establishing code review practices and engineering standards
- Track record of reducing technical debt through strategic refactoring and modernization
- Quick adaptability to new technologies — production experience with both .NET and JavaScript/TypeScript ecosystems

Education

Anadolu University – Distance Education Faculty
B.Sc. in Management Information Systems *(2018 – 2025)*

Istanbul Gedik University – Vocational School
Associate Degree in Computer Programming *(2013 – 2015)*

Languages

Turkish: Native
English: Advanced
